Michael A. Friedman, Commissioner
Food and Drug Administration
Parklawn Bldg., 5600 Fishers Lane
Rockville, MD 20857

Dear Mr. Friedman:

As a member of In Defense of Animals, I am writing to express my outrage that the Food and Drug Administration still requires cruel and obsolete animal tests for pharmaceuticals. I am asking that you allow the companies to substitute in vitro tests for the safety of both humans and animals.

Please do your part to stop animal suffering today.

Sincerely,

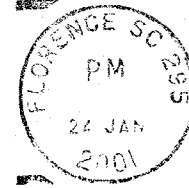

Jane Bunton
